

ASSESSMENT IS ORDER OF DAY DIVIDE SECTION

Work Being Hurried That Proofs of Labor May Be Performed Before July 1

The Divide district has been a busy place during the past couple of weeks and quite a number of men are employed in the performance of the annual assessment work on various properties. At least a

dozen properties are receiving attention and the work is being rushed to completion that the proofs of labor may be placed on record by July 1.

H. D. King is having the assessment performed on the Columbia Divide, while Roger "Onie" Daugherty is in charge of the work going forward on the Silver Divide and Wilson Divide, as well as a number of other groups of claims. James Grimes, who is interested in a number of companies, also has men at work in performing the required amount of work.

DRIFTING NOW IN ORDER ON STORM CLOUD

Ground Being Explored at Bottom of Shaft Which Has Attained Depth of 70 Feet

Development on the Storm Cloud property at Camp Taylor promises fruitful results at an early date and it need prove no surprise to learn of a test shipment being made at an early date. At a depth of 70 feet drifting has been started southeast and northwest and a four-foot body of splendid grade ore is showing although neither wall is exposed.

A large amount of supplies has been delivered at the seat of operations, and a force of 15 men is being employed under the direction of Neils P. Nelson. Assessment work on a number of claims that are controlled is being rushed, and the whole district is showing quite a little amount of activity at the present time. Following the holiday season it is predicted that the new camp will force steadily forward as a mineral section of more than passing notice, and there seems no good reason to be offered why the district will not quickly develop into a popular mining region.

He will assume his new duties on July 15 and make his headquarters in Los Angeles and will divide his time between Fresno, Tatt, Bakersfield and Col. ingo.
